

Brookfield Properties' Partner to Empower program

Brookfield Properties is committed to partnering with, empowering, and providing resources for Black- and minority-owned businesses. We are determined to address and break down the systemic racial barriers that members of our communities face so that they can access the opportunities they have the right to pursue.

Partner to Empower will help business owners and entrepreneurs open and expand their brick-and-mortar presence within our centers by providing:

- business planning and guidance
- networking opportunities with community experts
- financial support for store build-outs
- a four-week Retail Workshop led by industry insiders

This program's resources are currently dedicated to launching physical retail stores at a list of our properties in Alabama, Florida, Georgia, Louisiana, North Carolina, and South Carolina.
