# ***Soil Health Field Day***

**Tuesday, October 7, 2014**

9:00 am—12:30 pm

*Lunch provided*

at

**Carter Farms**

120 Merrylane Road

Eastover, SC 29044

***RSVP to Charlie Fisher at (803) 576-2080 or  
[fisherc@rcgov.us](mailto:fisherc@rcgov.us) by September 30.***

Join us to learn...

- How no-till and cover cropping are affecting soil characteristics, weed management, pest control, nutrient cycling, crop yields, and the bottom line
- To use biological soil tests to evaluate soil health and fertility
- First-year results from a Conservation Innovation Grant focusing on soil health
- ...and more!

*Speakers will include NRCS Conservation Agronomist Gordon Mikell, Carter Farms owner/operator Jason Carter, and Research Professor Dr. Buz Kloot.*

**Two hours** of pesticide applicator continuing certification hours will be offered.

**Two hours** of certified crop adviser credits will be offered.

**Directions:** From Garner's Ferry Road (US-76/378), turn south onto Old Congaree Run at Mr. Bunky's Market. Go 2 miles; turn left onto St. Matthews Church Road; go 1.5 miles. The farm will be on the right.

This workshop is sponsored by the Richland SWCD, the University of South Carolina, and the USDA-NRCS through a Conservation Innovation Grant in partnership with the Dillon, Marlboro, Kershaw, Calhoun, and Orangeburg SWCDs.
